Safety is all about people ...

Did you know that June is National Safety Month? According to the National Safety Council, one worker is injured on the job every 7 seconds. This leads to 99,000,000 work days lost in the US per year due to work related injuries.

The top three workplace injury events are:

1. Overexertion (i.e. including lifting and lowering).
2. Contact with Objects and Equipment.
3. Slips, Trips, and Falls.

How can you avoid these types of injuries?

1. Avoid bending, reaching, and twisting when lifting.
2. Store heavy objects close to the floor.
3. Be aware of moving equipment/objects in your work area.

To raise our awareness of safety at KCDA, workplace consultant Archbright conducted a safety inspection of our facility in May. Archbright's Safety Management Team identified a number of corrective action items and offered suggestions on how to improve the safety of our work environment. Archbright will publish a summary of this report and a copy will be presented to KCDA's Safety Committee in June. Remember, safety is all about people. Not only is safety the right thing to do, safety can boost employee morale, increase productivity and lower costs.

For more than 70 years, KCDA has been a leader in providing centralized procurement services to our member school districts. KCDA helps districts focus their resources in the classrooms by creating volume purchasing and fulfilling bid law requirements. KCDA operates as an extension of your purchasing department, governed by the basic laws and regulations that apply to all school districts in Washington. Every dollar spent using our contracts increases our purchasing power and helps us get lower pricing to our member districts. More importantly, you can be assured that our contracts are safe, legal, and compliant.

So many purchasing cooperatives which one to choose?

The education marketplace offers school districts and other public agencies a wide and ever-growing field of purchasing cooperatives to choose from. It seems every time you research purchasing cooperatives another new out of state purchasing group pops up (there are at least five from Texas) or one cooperative buys and merges with another! Some of these organizations, like KCDA, are public non-profit purchasing cooperatives. Other purchasing groups are actually owned by large private “for profit” companies.

With all of these purchasing choices we’d like to offer 5 reasons to direct your procurement needs through your member owned cooperative... KCDA!

5 Reasons to Purchase through KCDA!

Member Owned and Operated. KCDA is owned by the 294 school districts in the State of Washington. We are governed by a board of publically elected school board members from King County and are audited annually by the State Auditor’s office. Our focus is providing our members with state bid law compliant products and services to assist them with their purchasing needs.

1. **Awarded Contracts.** KCDA offers our members a wide variety of competitively bid contracts ranging from those with a Capital Projects focus (Modular Buildings, Furniture, Carpeting, Roofing) to the sophisticated technology employed in today’s classrooms and public agencies.
2. **Wide Product Selection.** KCDA’s 170,000 sq. ft. warehouse in Kent, Washington offers members a wide array of office, arts, custodial, and facility supplies that may be ordered on line at KCDA.org or through our Customer Service Department.
3. **Collective Purchasing Power.** KCDA was founded in 1938 by school board directors in Washington in order to combine their collective purchasing power. Today KCDA serves school districts and other public agencies in Washington, Oregon, Idaho, Montana and Alaska.
4. **Keeping it local!** There are a number of purchasing cooperatives across the USA. KCDA is your local purchasing cooperative focused on meeting the needs of our Northwest members!

MEET OUR STAFF

Lisa Russell

Lisa Russell is KCDA’s “Accounts Payable Lead” working with the Administrative Department at KCDA’s office in Kent, WA. While Lisa may not be working directly with our members, KCDA’s awarded vendors and inventory supply partners know Lisa very well as she interacts with them on a daily basis!

Lisa’s job involves paying all of KCDA’s day to day operational expenses and issuing payment to vendors for direct ship billing and the products and other inventory carried by the KCDA warehouse. Prior to joining KCDA in 2014 Lisa worked in the office supply industry for Complete Office and Staples and so she is quite familiar with the types of product lines that we pack and ship daily to KCDA members.

According to Lisa, the best part of her job is the satisfaction of seeing a job well done and bringing a project through to completion. When she is not paying the bills for KCDA Lisa and her family enjoy traveling and trying out new restaurants!

The next time your district or public agency places an order with KCDA please remember that caring KCDA employees like Lisa are behind the scenes seeing that the products and other inventory items that make up your order are paid for by KCDA in a prompt and efficient manner!
