kajeet sentinel ™

accessiBe

Sentinel, now with accessibility features to further digital inclusion.

Approximately

15%

of the global population live with some form of disability.

(Source: World Health Organization)

Recognizing that digital inclusion means access for everyone, Kajeet's Sentinel platform is enhanced to deliver enriched experiences for all users, including individuals with limited movement, blindness, low vision, photosensitivity, cognitive and neurodevelopment disorders. Sentinel's accessibility features, deployed via accessiBe, include predefined profiles and advanced customization, empowering users to personalize content, color, effects and orientation to fit their specific needs and preferences.

→ **Seizure Safe Profile**

→ **Vision Impaired Profile**

→ **Cognitive Disability Profile**

→ **ADHD Friendly Profile**

→ **Blind Users (Screen-reader)**

→ **Keyboard Navigation (Motor)**
